LONDON CAPITAL CLUB

Sponsoring the Global Marketing Leadership Series

The **Global Marketing Leadership Series** is an exciting new programme of events and workshops from Global Marketing Network and the London Capital Club. It is aimed at giving senior business professionals access to the latest marketing and business ideas and practices presented by today's global thought leaders and business gurus. Participants can expect to learn how to achieve greater profitability, to enhance their professional reputations and to benefit from high-level networking and business development opportunities.

How do sponsors benefit?

- Can access Global Marketing Network's database and global network of partners
- Will join the Global Marketing Network Partner Forum, our way of bringing together sponsors and supporters to share best practice and collaborate on synergistic, non-competitive opportunities
- Will be associated throughout the promotional period of each event and at the event itself with an opportunity to engage directly with an audience of business decision makers
